Work History

Ziff Davis, J2 Global

Apr 2022 - Present

Customer Service Representative

New York, USA (Remote)

- Processed and issued product orders and service upgrades using the Azure-hosted order platform and integrated APIs, achieving 100 % order accuracy
- Resolved customer issues using structured problem-solving and logical troubleshooting, consistently maintaining strong satisfaction ratings.
- Adapted to new software tools such as the Angular-based support portal and Dockerized testing environment within two weeks, enabling the team to handle increased ticket volume without delay
- Served as point of escalation for complex customer issues, documenting cases clearly and ensuring timely resolution to improve client retention.

Advantage Communications

Jun 2020 - Apr 2021

Customer Service Representative

Kingston, Jamaica

- Guided customers through product and service options using the CRM system, identified their needs, and presented clear recommendations, which helped improve customer satisfaction
- Used CRM and support platforms daily to log interactions, track issues, and follow up on cases with accuracy.
- Collaborated with supervisors and teammates to resolve escalated concerns, ensuring seamless handoffs and quick turn around times.
- Delivered consistent service quality by balancing high call volumes with detailed documentation and professional communication.

IBEX Global Jamaica

Oct 2019 - Jan 2020

Customer Service Representative

Portmore, Jamaica

- Handled inbound customer inquiries, using debugging techniques and the ticketing system to diagnose issues and deliver clear solutions, which reduced average resolution time
- Navigated multiple internal systems, including the CRM and API dashboards, to update customer data and track requests, ensuring accurate record-keeping and decreasing data entry errors
- Maintained strong communication skills in a fast-paced environment, meeting performance targets and quality expectations.
